SOLARGLIDE™

PIONEERS IN VISIONARY NAVIGATION

Welcome to the Solarglide core product range brochure for 2015.

I'm Paul Pringle, Managing Director, and the fourth generation of my family working in the maritime sector.

Solarglide design, manufacture and supply the very best navigational safety products. Our products include: bridge solar screens, marine window films, ship wipers and marine curtains, all made to our clients' specifications. They are approved by ABS, DNV and LRS to work in the toughest environments: extreme heat, solar glare, piracy threats, heavy rain and crashing waves.

We never compromise on quality or service, which is why Solarglide is trusted by the world's leading brands who operate vessels, cruise liners, oil rigs and cranes around the world.

To view our full product range and specifications, please visit our website - www.solarglide.com. If you sign up to our newsletter, we will keep you updated with new products, updates, and news from the Maritime community. We look forward to hearing from you and if you have any comments or if you have a specific requirement, please get in touch, theteam@solarglide.com

CONTENTS

ANTI GLARE SOLAR PROTECTION

- **SG GLIDER** Antiglare solar screen 4
- **SG AIRGLIDER** Antiglare solar screen without cassette 4
- **SG SOLARFILM** Antiglare solar film 4

PRIVACY SCREENS

- **SG SAFETYFILM** Antifragmentation window film 5
- **SG LUNAGLIDER** Blackout screen 5
- **SG SILHOUETTE** Semi light transmitting screen 5

MARINE CURTAINS

- **SG CURTAINS** Curtains, fabrics and voiles 6

DUAL PROTECTION

- **SG DUAL 24** Dual screens housed in one cassette 6

MARINE WIPERS

- **STRAIGHTLINE** Horizontal stroke wiper system 7
- **PANTOGRAPH** Pivoted stroke wiper system 7
- **CLEARVIEW** Circular high speed rotating wiper system 7
- **PNEUMATIC** Straightline and pantograph wipers for hazardous areas 7

ANTI GLARE SOLAR PROTECTION

SG GLIDER

ANTI GLARE SOLAR SCREEN WITH CASSETTE

The SG Glider solves heat and glare related problems for crew working on the bridge.

The main benefits of the SG Glider include:

- Reduces solar glare by up to 93% and rejects up to 83% of solar energy
- Virtually eliminates UV radiation
- Safer navigation of your vessel
- Reduced air conditioning costs
- Increases crew productivity and safety

SG AIRGLIDER

ANTI GLARE SOLAR SCREEN WITHOUT CASSETTE

The SG Airglider combines the benefits and performance of our SG Glider screen but without the cassette housing.

The main benefits of the SG Airglider include:

- Reduces solar glare by up to 93% and rejects up to 83% of solar energy
- Virtually eliminates UV radiation
- Safer navigation of your vessel
- Reduced air conditioning costs
- Increases crew productivity and safety

SG SOLARFILM

ANTI GLARE SOLAR WINDOW FILM

SG Solarfilm features a balanced performance of heat rejection, UV Filtering and light transmission.

The main benefits of SG Solarfilm include:

- Suitable for non navigational windows
- Reduced air conditioning costs
- Available as internal or external film
- 3 tints available; reflective silver, neutral grey or bronze
- Available as a roll, by the metre or pre cut to window size

ANTI FRAGMENTATION FILM AND PRIVACY SCREENS

SG SAFETYFILM

ANTI FRAGMENTATION WINDOW FILM

SG Safetyfilm protects your crew and vessel in the event of dangerous glass breakage.

The main benefits of SG Safetyfilm include:

- Complies with European guidelines for bomb blast protection
- Holds glass together if it shatters or breaks
- Strengthens glass without compromising vision
- Allows crew greater time to alert authorities if under threat from pirates
- Available as a roll, by the metre or pre cut to window shape and size

SG SILHOUETTE

SEMI LIGHT TRANSMITTING PRIVACY SCREEN

SG Silhouette is a semi light transmitting privacy screen; creating a cool and comfortable environment.

The main benefits of SG Silhouette include:

- Allows ample light into the interior space
- Reduces glare, heat and UV radiation from the sun
- Offers moderate privacy from the outside environment

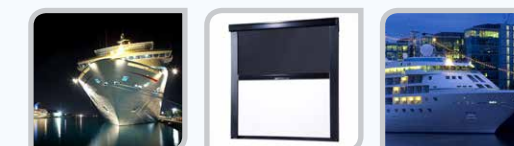

SG LUNAGLIDER

BLACKOUT PRIVACY SCREEN

The SG Lunaglider screen is the ultimate blackout solution, with guaranteed comfort and privacy.

The main benefits of SG Lunaglider include:

- Improves port security by keeping the vessel windows covered
- Creates a night time environment, even during daylight hours
- Eliminates > 99.9% of light and UV radiation
- Flame retardant IMO tested materials

SG CURTAINS

SG CURTAINS

CONTEMPORARY MARINE CURTAINS

SG Curtains protect against the fading of interiors caused by heat, UV radiation and light.

The main benefits of SG Curtains include:

- ABS Type approved curtains, fabrics and voiles
- IMO certified fabrics and voiles
- Compliant with British and European Flame retardant Safety Standards
- Available as semi-transparent or blackout curtains
- Multiple fabric colours and patterns available
- Slimline and heavy duty curtain rails to cater for all scenarios

SG DUAL 24

SG DUAL24

A TWIN SCREEN IN ONE CASSETTE FOR 24 HOUR WINDOW PROTECTION

The SG DUAL 24 combines the benefits and performance of two screens in one cassette.

The main benefits of Dual 24 include:

- Ultimate light control system
- Solar protection on the bridge during the day
- Increased vessel security whilst in port and during night-time hours
- Eliminates the need for two separate screens
- Choose from solar film, blackout fabric or dimout fabric

SG POWERGLIDER

Solarglide also offers a range of motorised screens and curtains as an alternative to manually operated systems. Our motorised range includes hardwired and self sufficient solar powered screens and curtains.

MARINE WIPERS

STRAIGHTLINE

STRAIGHTLINE MARINE WIPER

- Suitable for installation above or below the window, including irregular shaped windows
- A twin wiper option for economical wiping on much larger areas or adjacent windows
- A self park position at either end of the stroke
- Made from marine grade aluminium, which ensures a long life

Available with internal or external motors.

PANTOGRAPH

PANTOGRAPH MARINE WIPER

- Designed to wipe large areas of a window, particularly where a deep wipe is required
- A self park position at either end of the stroke
- Installation is suitable above or below an inclined window
- Made from 316 stainless steel with marine grade aluminium ensuring long life
- Helps maintain clear vision, even in the poorest weather

CLEARVIEW

CLEAR VIEW MARINE WIPER

- Operates by rotating at a high speed
- A built in heating element, which prevents the pane from fogging
- Optional tubular heating element of 150 watts, ideal for sailing in very cold areas
- Can also be supplied with an operating panel which offers additional control
- Manufactured from sea water resistant aluminium

PNEUMATIC

PNEUMATIC MARINE WIPER

- Adheres to strict safety regulations
- Designed for use in hazardous environments that include oil, gas or dust
- Meets British Standards and European Directives
- Suitable for installation above or below a window of any shape
- Made from 316 stainless steel with marine grade aluminium ensuring long life
- Available as a Pantograph or Straight Line Wiper
