

**Company Profile**

Internaftiki was inaugurated in 1975 near the port of Piraeus. Since its foundation, the company has expanded rapidly in the field of marine and industrial products, by offering an entire range of service activities on ships and yacht machinery. With essentially 33 years in operation, the company's ability to deal with various customers needs before and after sales has established it as a highly reputed business in the marine trade.

Quality System

Internaftiki operates with a quality control system under ISO 9001:2000 which is certified by Lloyds Register of Shipping ensuring the highest standard of customer satisfaction. Our fundamental aim is to fulfil all our customer needs and demands. This quality control system helps us to recognize these needs and make them an actuality by offering the best viable service.
